

MY DOMOS AFRICA

Landing Page — Copy & Structure Document

Version 2.0 | Founding Document | Confidential

Africa’s Home for Rental Trust.

PREPARED BY	Head of Operations, DomosHQ
DOCUMENT PURPOSE	Creative brief for implementation — authoritative source of truth for all landing page copy, structure, and design direction. Pending Founder sign-off.
VERSION NOTES	v2.0 applies Phase 1 (Rent Shield) positioning corrections. All listing/marketplace language removed. Before-During-After framework applied. Vouch Registry and Wahala Map repositioned as core trust infrastructure. Hero, Platform, and How It Works sections fully restructured.

This document is the authoritative creative brief for the My Domos Africa landing page. No design or development work should commence before Founder ratification.

Document Guide

This document defines every section of the My Domos Africa landing page: exact copy, layout intent, design notes, and CTAs. It is the authoritative brief for the Web Designer and the source of truth for all landing page content decisions.

SECTION 01 — NAVIGATION BAR

Purpose: Anchors institutional identity; directs visitors to primary actions.

The navigation bar anchors the institutional identity of the page. It communicates authority at a glance and directs visitors to the two highest-priority actions: joining the waitlist and learning about investment. It is present on every scroll position (sticky).

Element	Copy / Direction
Logo	Symbol & Name — My Domos Africa (Montserrat Bold, White)
Nav Link 1	The Platform
Nav Link 2	For Tenants
Nav Link 3	For Landlords
Nav Link 4	For Agents

Element	Copy / Direction
Nav Link 5	For Investors
CTA Button	Join the Waitlist →

DESIGN NOTE Background: Deep Navy (#1B2A4A). Logo in Montserrat Bold, White. Nav links in Arial, White — Gold on hover. CTA button: Solid Gold fill, Deep Navy text, Montserrat Bold. Sticky on scroll. Mobile: hamburger menu collapses all nav links.

SECTION 02 — HERO SECTION

Purpose: First impression — answers: What is this? Who is it for? What do I do next?

v2.0 CHANGE: Hero fully restructured. Listing marketplace framing removed. Before-During-After framework introduced. Product described as a rental protection and verification system, not a discovery platform.

HEADLINE — PRIMARY

Renting without MyDomos is renting unprotected.

SUB-HEADLINE

Before you pay, verify.
When you pay, stay protected.
After you move in, stay in control.

PLATFORM DESCRIPTION

My Domos Africa provides a structured system that enables tenants, landlords, and agents to verify, agree, and transact with full protection across the rental process.

CLARITY LINE — ADD BELOW DESCRIPTION

Used before, during, and after every rental transaction.

AGGREGATION POSITIONING LINE — ADD

My Domos Africa integrates with existing rental platforms and the offline market — adding a layer of verification, protection, and financial structure to every transaction.

CTA BLOCK

CTA	Copy & Style
PRIMARY	Join the Waitlist → Solid Gold fill · Deep Navy text · Montserrat Bold
SECONDARY	For Investors → Outlined Gold · Navy background · Montserrat Bold

TRUST SIGNAL STRIP

Display four quantitative anchors in a horizontal strip below the CTA buttons.

180M+ Nigerians — primary launch market	1.4B+ Africans — continental ambition	3 User sides: Tenants, Landlords, Agents	\$0 Institutional coverage currently available
---	---	--	--

DESIGN NOTE Background: Deep Navy. Subtle abstract geometric pattern — no photographs. No stock imagery. A dark Africa map silhouette as a layered background element reinforces continental ambition without being literal.

DESIGN NOTE Hero must communicate immediately: (1) what the product is, (2) when it is used, (3) why it matters. Do not imply property discovery.

SECTION 03 — THE PROBLEM

Purpose: Establishes market failure equally across all three sides. Builds urgency.

SECTION HEADLINE

Africa’s rental market operates on broken trust.

Every party — tenant, landlord, and agent — is exposed on every transaction.

THREE-PANEL PROBLEM BREAKDOWN

Display as three-column card layout. On mobile: horizontally arranged, fixed aspect ratio, horizontal swiping enabled. Recommended: Deep Navy card background with Gold accent number and white body text.

01 No Documentation Rental transactions across Africa are verbal, undocumented, and unenforceable. There is no audit trail, no legal recourse, and no accountability for any	02 No Trust Infrastructure Landlords are exposed to defaulting tenants. Tenants are exposed to fraudulent agents. Agents operate without credential or accountability infrastructure. Zero protection. Everywhere.	03 No Verification at Scale No platform verifies agents or tenants at institutional scale across Africa. This problem has not been solved. The infrastructure does not exist. Until now.
--	--	--

party on any side of any transaction.

CLOSING STATEMENT

Housing is the second-largest financial commitment most Africans will ever make. The entire ecosystem operates without the institutional infrastructure that a transaction of this significance demands.

SECTION 04 — THE PLATFORM

Purpose: Introduces My Domos Africa as a rental protection and transaction layer — not a listing marketplace.

v2.0 CHANGE: Platform section fully repositioned. My Domos Africa is described as a rental protection system, verification infrastructure, and financial transaction layer. All listing marketplace language removed. User card content updated per Phase 1 (Rent Shield) scope.

SECTION HEADLINE

One system. Full control over your rental.

SECTION SUB-LINE

My Domos Africa does not help users find houses. It ensures they are protected when dealing with any rental they have already found.

BEFORE / DURING / AFTER POSITIONING — ADD

My Domos Africa protects you before payment (verification), during the transaction (agreements and escrow), and after move-in (records, disputes, and tenancy management).

THREE-SIDED VALUE CARDS

One card per user side. Display as tabs on desktop; stack vertically on mobile. Each card: audience label, headline, platform description, feature list, and CTA.

FOR TENANTS

FOR TENANTS

Avoid blind payments. Stay protected.

My Domos Africa works alongside existing rental platforms to verify, protect, and manage rental transactions before, during, and after payment.

- Verify agents, landlords, and properties before payment

- Identify risk zones and fraud patterns using Wahala Map
- Search phone numbers and identities using Vouch Registry
- Review and lock agreements before signing
- Pay through structured, protected channels with accountability conditions
- Store rental records and evidence securely
- Formal rental history that follows your profile
- Shared tenancy tools for co-renters

→ [Join the Tenant Waitlist](#)

FOR LANDLORDS

FOR LANDLORDS

Operate with structure and visibility.

Create and manage tenancy records for existing rental agreements. Sync with tenants after property discovery. Manage your property with institutional tools.

- Verify tenant identity and rental history
- Create structured tenancy records and invite your tenant to sync
- Track rent payments transparently through documented channels
- Maintain documented interaction history across the tenancy lifecycle
- Enforceable tenancy agreements with legal standing
- Manage disputes with full recorded evidence

→ [Join the Landlord Waitlist](#)

FOR HOUSING AGENTS

FOR HOUSING AGENTS

Build credibility through structure.

Establish a verified professional identity. Facilitate rental transactions with documentation. Build a reputation that compounds through every deal.

- Establish verified professional identity and credential
- Transaction facilitation tools for end-to-end deal management
- Manage rental agreements digitally with full documentation
- Verified identity and reputation system
- Track transactions and build a long-term performance profile
- Compliance with emerging regulatory standards

→ Join the Agent Waitlist

DESIGN NOTE Recommended implementation: tabbed cards on desktop & tablet, stacked vertically on mobile. Users must identify their side immediately without ambiguity about the product's nature.

SECTION 05 — HOW IT WORKS

Purpose: Removes ambiguity about platform mechanics. Before-During-After framework applied per user side.

v2.0 CHANGE: Full restructure. Step 2 of tenant flow corrected from 'Search verified listings' to verification flow. Landlord Step 1 corrected from 'List your property' to 'Create tenancy record'. Agent Step 2 corrected. All flows rebuilt to five steps aligned to Phase 1 (Rent Shield). Before-During-After framework applied throughout.

SECTION HEADLINE

Before. During. After. You are covered.

TENANT FLOW

TENANT FLOW	
	Step & Description
01	Verify before payment Check agents, landlords, and properties using Wahala Map (risk intelligence) and Vouch Registry (fraud and identity records) before committing financially. Know who you are dealing with before any money moves.
02	Define and lock agreement All rental terms are agreed, documented, and locked before payment is made. Both parties sign the digital agreement within the platform. Nothing is assumed.
03	Pay with protection Payments are tracked and structured to ensure accountability. Funds are only released when agreed conditions are met. Your money is not at risk.
04	Record move-in condition Document the property condition at the start of tenancy using the platform. This record protects you throughout the tenancy and at exit.
05	Maintain protected tenancy All payments, issues, agreements, and communications remain recorded and accessible for the full duration of your tenancy. Everything is documented.

LANDLORD FLOW

LANDLORD FLOW

	Step & Description
01	Create a tenancy record Set up a structured rental record for your property and invite your tenant to sync. No listing required — the platform works alongside however the tenant found your property.
02	Agree on terms All rental conditions are clearly defined and documented within the platform before any payment is made. Both parties confirm.
03	Receive structured payments Rent is paid and tracked through secure, organized channels. All payments are documented and traceable by default.
04	Manage with records All interactions, updates, and communications throughout the tenancy are automatically documented. Nothing is left informal.
05	Resolve with evidence Disputes are handled using the full recorded history of the tenancy. Every interaction is available as evidence.

AGENT FLOW**AGENT FLOW**

	Step & Description
01	Complete verification Establish a verified professional identity on the platform. Distinguish yourself from unverified operators. Your credential is your professional foundation.
02	Facilitate structured deals Manage rental transactions with proper documentation from offer to execution. Every deal you facilitate is recorded and attributed to your profile.
03	Handle agreements digitally All agreements are created, signed, and stored within the system. No paperwork. No ambiguity. Full accountability.
04	Track all transactions Each deal is recorded and attributed to your agent record. Commissions are structured and tracked. Your professional history is formalized.
05	Build long-term credibility Your performance history contributes to a visible reputation profile that compounds with every completed transaction.

SECTION 06 — WHY IT MATTERS

Purpose: Elevates to institutional purpose. For all audiences — especially investors and mission-aligned contributors.

MISSION & VISION BLOCK

OUR MISSION	To bring order, trust, and financial structure to Africa’s broken rental housing market — protecting landlords, empowering agents, and securing tenants.
OUR VISION	An Africa where every rental transaction is transparent, every agreement is enforceable, and every African can access housing with dignity.

BRAND VALUES STRIP

Display five brand values in a horizontal strip. On mobile: horizontal swiping. Each cell: Gold text on Deep Navy background. Montserrat Bold.

Trust	Order	Inclusivity	Accountability	Dignity
-------	-------	-------------	----------------	---------

SUPPORTING BODY COPY

Africa’s rental market has operated on informal trust for generations. Verbal agreements. Cash transactions. Unaccountable agents. Zero protection for any party. That is not a feature of the market — it is a failure of the infrastructure that was never built.

DomosHQ exists to build that infrastructure. Permanently, at institutional scale, and across the entire continent.

My Domos Africa is not a workaround for a broken system. It is the system that should have always existed. Every rental transaction on My Domos Africa is verified, documented, and protected — for the tenant, the landlord, and the agent. For the first time.

SECTION 07 — FOR INVESTORS

Purpose: States market opportunity with precision. Earns the investor conversation.

SECTION HEADLINE

A multi-billion dollar market with no institutional infrastructure.

DomosHQ is building the foundational trust layer that Africa’s rental economy requires — and has never had.

MARKET OPPORTUNITY

The Market	Africa's rental housing market represents billions of dollars in annual transactions — the overwhelming majority conducted informally, without documentation, verification, or legal protection. This is not a niche segment. It is the primary mode of housing for hundreds of millions of people.
The Gap	There is no platform operating at institutional scale that credentials agents, verifies rental parties, and protects all three sides of the transaction simultaneously. My Domos Africa integrates with existing rental platforms and the offline market — adding a layer of verification, protection, and financial structure to every transaction. The infrastructure category does not exist at scale. DomosHQ is building it first.

DOMOSHQ ROADMAP POSITIONING

Phase	Focus	Market
Phase 1	Nigeria Launch — Rent Shield	180M+ addressable population
Phase 2	West Africa Expansion	Key regional markets
Phase 3	Pan-Africa	Continental trust infrastructure
Pathway	CBN Sandbox	Regulatory compliance from day one

INVESTOR CTA

If you are building a portfolio in African fintech, proptech, or institutional infrastructure — this is the conversation worth having.

→ Request the Investor Brief

DESIGN NOTE Button: Outlined Navy · Montserrat Bold · links to contact form or direct email

SECTION 08 — JOIN THE WAITLIST

Purpose: Primary conversion section. Minimal friction. Institutional framing.

SECTION HEADLINE

My Domos Africa is coming. Be among the first Africans to rent with institutional protection.

FORM COPY & FIELDS

Field / Element	Copy / Direction
Form Headline	Register your early access.
Sub-copy	Join the waitlist to be among the first landlords, tenants, and agents on My Domos Africa. Early access users receive priority onboarding and founding user recognition.
Field 1	Full Name [placeholder: Enter your full name]
Field 2	Email Address [placeholder: Enter your email address]
Field 3	I am a... [dropdown: Tenant / Landlord / Housing Agent / Other]
Field 4	State / City [placeholder: Where are you based?]
Submit Button	Join the Waitlist → [Solid Gold fill · Deep Navy text · Montserrat Bold]
Privacy Note	We will only use your information to send updates about My Domos Africa. Your data is never sold or shared with third parties.

DESIGN NOTE Form container: white card with thin border on cream or navy section background. All input fields: clean, minimal, Arial 16pt. Submit button full-width on mobile. Privacy note in Arial 14pt, muted grey. No CAPTCHA at this stage.

SECTION 09 — BUILD WITH US

Purpose: Contributor recruitment. Ambitious, principled, direct. Extends a deliberate invitation.

SECTION HEADLINE

We are building the team that builds this.

This is a rare invitation. You are being asked to join before the product is built, the brand is launched, or the story is known. That is what founding means.

OPEN ROLES SNAPSHOT

Display as 2x2 card grid. Each card: role tier label (Gold), role title (Montserrat Bold Navy), one-sentence description (Arial). CTA at the bottom links to the full Recruitment Narrative or a direct contact pathway.

EQUITY CONTRIBUTOR / VOLUNTEER / INTERN
Head of Product

EQUITY CONTRIBUTOR / VOLUNTEER / INTERN
Product & UI/UX Designer

Own the product roadmap for My Domos Africa. Translate user needs and business strategy into a structured, prioritized build plan.	Design how DomosHQ and My Domos Africa look, feel, and communicate — from the brand identity system to every product screen.
VOLUNTEER / INTERN Graphic Designer Produce the visual assets that bring the DomosHQ brand to life across marketing, social media, and communications.	VOLUNTEER / INTERN Social Media Strategist / Manager Define and manage DomosHQ’s institutional social media presence across LinkedIn, X, and Instagram from founding stage.

CONTRIBUTOR CTA

We are not building a startup. We are building an institution. We need people who understand the difference.
